**DURATION:** 1 P.M. – 3 P.M.

### **COURSE DESCRIPTION:**

More than 300 dealership employees obtained NJ CAR *Legal & Regulatory Compliance* Certification since 2007. While some individuals maintained their certification by participating in our March 2010 recertification course, many others did not. These individuals risk losing their certification if they don't attend a re-certification course aimed at keeping them up-to-date with the latest information available regarding the complicated regulatory compliance issues that impact all dealerships.

NJ CAR has developed a way to make re-certification easier and more time-efficient than ever before! All you need is a computer and a telephone and you will be able to participate in this important refresher course. All TRACK I and TRACK II certified dealership managers must attend a Re-Certification Seminar every two years in order to retain their certified status.

Dealership management staff is welcome to participate as well, even if they have not previously received certification, as they will find the webinar very informative.

This two-hour Webinar will review all of the major regulatory topics, with the majority of the time focused on changes to existing regulations that have been implemented over the last two years, and on new laws and regulations that have gone into effect during that period. Recent changes include the pending enforcement date for the Red Flags Rule, recent changes to the New Jersey MVC requirements for PIF licensing, changes in MVC procedures, "stop codes," and the Division of Consumer Protection's positions on the rules governing Internet and other advertising, and used car pricing.
